DIE FOR FUN

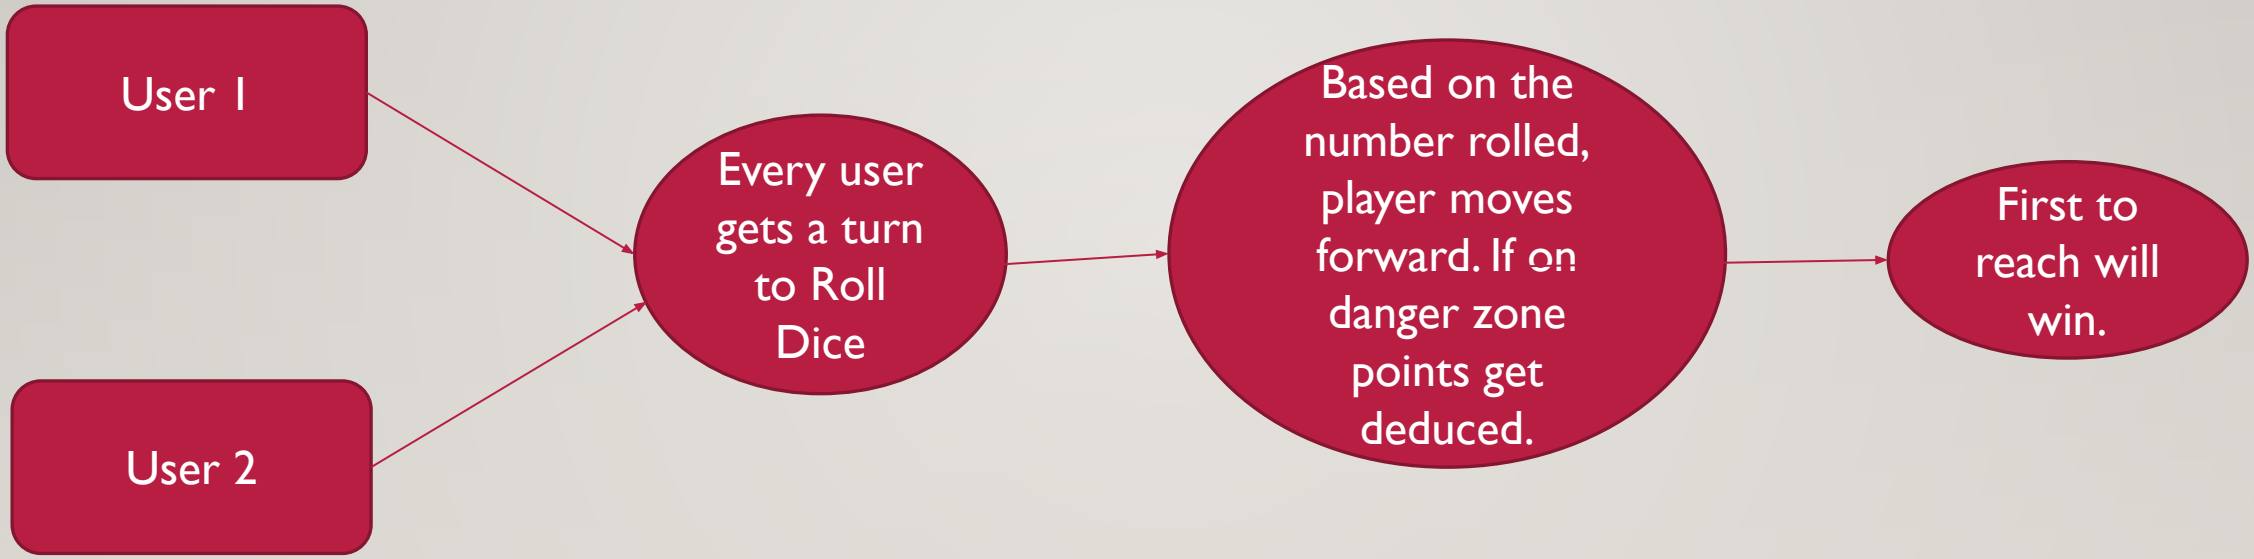
Laxmi Alekhya Nagubandi
Mohith Chandra Narra
Tejaswi Pinnaka

DESCRIPTION

Die for Fun game involves pure luck.

It is played between two players on a gameboard having numbered gridded squares. A number of random "danger zones" are pictured on the board, each connecting two specific board squares. The objective of the game is to navigate from the start (bottom square) to the finish (top square) with the help of die rolls and the resulted number helps or hinder by crossing the Danger zones, of one's game piece.

UML DIAGRAM



User 1
User 2
Every user gets a turn to Roll Dice
Based on the number rolled, player moves forward. If on danger zone points get deduced.
First to reach will win.

Welcome Mohith!

THE DICE GAME | FUN GAME FOR KIDS AND ADULTS

Hey! This is a board game in which dice are rolled. Each player gets a chance to roll in this game. The die will determine how many positions each player advances. The score is reduced proportionally in danger positions.

player_gui.php

- This file aids in setting up the scoreboard layout for the players.
- It also keeps track of the player rolls and disable each player alternatively.

Testing and Validations

- Signin
- Sessions
- Signup

CSS and Text File

- We have implemented 2 Css pages, 1 for the entire project except summary page and other for only summary page.
- We have used a text file in order to store the values that are generated during signup to avoid duplication of users.

Scrum Framework

- It helps people, teams and organizations generate value through adaptive solutions for complex problems.
